

Mobile & Cloud Solutions

Take advantage of printing and scanning capabilities from today's mobile and cloud technology.

KYOCERA Mobile Print

Simply and conveniently print files, web pages, and images using your smartphone or tablet.

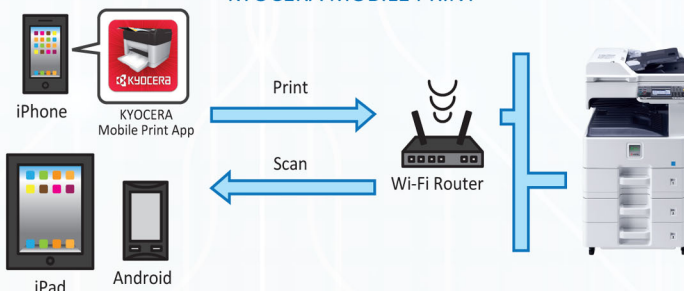

PRINT CAPABILITIES TO MATCH YOUR ON THE GO WORK STYLE

Today's business environment becomes increasingly mobile. Frequent travel, working between multiple locations and virtual offices bring new demands for anywhere and anywhere access to files and documents. The mobile workforce is looking to transform their entire office into a mobile experience, and they also require print and scan capabilities that mirror the flexibility of their mobile devices.

KYOCERA Mobile Print enables mobile users to print documents, web pages and images simply on demand from their smart phone and tablet. On the other hand, users can scan files and images from KYOCERA MFPs to their mobile devices.

KYOCERA MOBILE PRINT

HIGHLIGHTS

The KYOCERA Mobile Print app puts you in control of document printing and scanning workflow

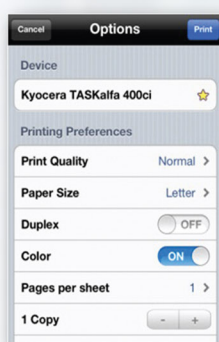

- Mobile print and scan in both iOS and Android's devices
- Robust settings enable greater control:
 - Print* - Quality, Paper Size, Duplex, Color, Pages per Sheet, Number of Copies, Page Range, Job Accounting, Staple, Punch
 - Scan* - File Name, Original Size, Quality, Color, Resolution
- Accountability: Track print jobs when job accounting is enabled at the MFP or printer
- Protect sensitive information for direct printing without the necessity to email document to a third party for printing

HOW IT WORKS

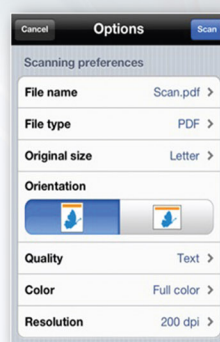

1. Download the free KYOCERA Mobile print app
2. Connect your mobile device to the same Wi-Fi network of the KYOCERA MFP or Printer
3. Use the KYOCERA Mobile Print app to open the document, image or web page you want to print/ scan
4. Print: Select the device you wish to print to, set your preferences and press Print
5. Scan: Place your document on the feeder, press Scan. The file will then send to your mobile device right away
